

K-LOVE is the only radio station of its kind in our area, to say that I and my family listen to it everyday is not a glib statement. This station is a wonderful source of encouragement and spiritual inspiration. Since this is the only radio station that provides this type of music and support it would be a tremendous personal lose to myself and my family as well as a lost to the Phoenix area. You can turn to music at almost every point on the radio dial, but this type of music combined with positive support is hard to find. I believe in the value of K-LOVE and we have supported it financially for the last several years. I believe that losing this community resource would be a serious lose to the Valley of the Sun.
